ROYAL AERATED WATERS MANUFACTORY.

PRODUCE the highest Class AERATED WATERS in the Far East on account of their High Class Machinery and also of the superior ingredients they use in the manufacture of their goods, and the cleanliness, &c., are all under strict supervision of Europeans only.

REPORT OF AN EXPERT.

The representative of Messrs. BRATBY and HINCHLIFE, LIMITED, Aerated Water Engineers and Chemists, Manchester, visited our factory recently in the course of a tour amongst Eastern Aerated Water Makers, and was greatly surprised at the compactness of our factory and also the methodical way in which everything pertaining to the making of Aerated Waters was carried out. He also expressed himself strongly on the absolute cleanliness of our whole establishment, which he assured us was equal to any he had yet visited and superior to a great many. He also reported that the quality of our goods was of a first-class nature, and they showed that scrupulous care was exercised in the course of their manufacture.

THE NEW FRENCH REMEDY

TRADE MARK

This successful and highly popular remedy, used in the Continental Hospitals in Lyons, Rouen, Dijon, and others, combines all the desiderata to be sought in a medicine of the kind, and surpasses everything hitherto employed.

THERAPION No. 1 is a remarkable medicine, which only removes the cause of the disease, and does not merely suppress the symptoms, the use of which does irreparable harm by laying the foundation of serious and often fatal diseases. In dysentery, piles, irritation of the lower bowel, cough, bronchitis, asthma, and some of the more trying complaints of this kind, it will be found astonishingly efficacious, affording prompt relief where other well-known remedies have been employed.

THERAPION No. 2 is a powerful purifier of the blood, which is sold in the form of capsules, and is used in the treatment of all diseases of the blood, such as skin diseases, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, arsenic, &c., to the destruction of the sufferer's health and ruin of his life. This preparation purifies the whole system through the blood, and thoroughly eliminates every noxious matter from the body.

THERAPION No. 3 is a powerful tonic, and is used in the treatment of all diseases of the system, such as nervous debility, general weakness, and all the distressing consequences of early errors, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigor to the debilitated.

HUMAN SKIN BOOK BINDINGS.

According to The Critic, the late Dr. F. Stockton-Hough of Trenton, N. J., who left a valuable medical library in several languages, had a fancy for bindings made of human skin. He owned at least six books thus bound. One of them, "Catalogue des Sciences Médicales Bibliothèque Nationale à Paris" (1857-73) is a large, very thick quarto half-bound in skin from the back of a man. The texture is quite coarse and does not even suggest human skin. On the fly-leaf of a second book, "Copper on Impregnation" (1879), the owner wrote: "Bound in leather tanned from the skin—the thigh of Maria L., affected with encysted trichina, who died of consumption in the Philadelphia Hospital. She was an Irish widow, aged 28 years." Maria L. furnished the binding for another book also: "Das Buch der Liebe, oder das Geschlechtsteilchen in seinem ganzem Umfange." The third piece of the leather-tanned skin of Maria L. covers Barlet's "Parties de la Génération." "Recueil des Secrets de Louise Bourgeois," the famous French midwife; a 12mo. is also bound in the skin of Maria L. A valuable private library in New York contains a book bound in a human skin presented by Dr. Stockton-Hough to the owner. Drollin's "De Conceptione Adversaria," a 12mo. is half-bound in tattooed skin from the wrist of a man who died in the Philadelphia Hospital. Dr. Stockton-Hough tanned the skin himself.

MAX NORDAU ON THE ART OF THE JAPANESE.

Comparing Japanese and European art, with special reference to national morality and religion, a leading Russian writer, in the Moscow Roussky Viedomosti, cites eminent writers and thinkers like Lebon, Prevot (Frenchmen), and Nordau, the German-Jewish publicist and critic, to prove that the Japanese are incapable of producing serious, significant, and profound works in any branch of art. The views of the last-named author are set forth in the following words:—

"The natural, hereditary incapacity of the Japanese for abstract thinking is stamped over all the manifestations of their spiritual life. The Japanese have no religion in the Occidental sense of the term. They have their mythology, which to the educated is a collection of fairy tales; but for the supernatural and the superstitious they have no need and no faculty. One of their greatest scholars has said that Christianity and Buddhism are to him like black and green tea; it is immaterial which is used, but the stimulating beverage is beneficial. It is not strange that Japanese art should be superficial, shallow, and unimpressive. It is destitute of soul, inspiration, aspiration, enthusiasm, power, pathos. And these things are wanting and impossible in Japanese art because the Japanese lacks that which creates and sustains these qualities—individualism, that inner, isolated, profoundly personal, exclusive world which the Western man boldly and consciously opposes to the whole external world. The Japanese is a collective being, a part of a mass. He lives in and with the mass. He is strong in the mass, and interesting as a constituent unit of it. His personal existence is the mere result of social, governmental, national existence. He has no tragic conflicts between the individual and the whole. To him 'Coriolanus' is unintelligible as 'Nora,' Ibsen's type of the modern woman struggling for self-realization. Hence his indifference to death—the extinction of personality. He has no individual life either here or beyond the grave. His life is heroic, but without lyricism, drama, poetry. This, however, is not necessarily permanent. The diagnosis is not a prognosis. The spiritual development of the Japanese has not yet begun. In the future they may be different and have art in the Western sense.—The Literary Digest.

DEATH OF A FAMOUS CRICKETER.

London, 1st July.

Tom Emmett, the celebrated Yorkshire cricketer, is dead.

General regret will be felt by cricketers all over the world, especially those of an older generation at the news of the death of Tom Emmett, the great Yorkshire cricketer. With his humorous, weather-beaten countenance, with his red Roman nose, blue chin and merry eyes, poor Tom in his day was a reigning popular favourite with the crowd, and he deserved his popularity for in addition to being a splendid, if somewhat erratic bowler—he could bowl more unplayable balls and more wiles than any of his contemporaries—he was a useful bat and a truer every yard, fighting right up to the finish even under the most hopeless and depressing conditions. Emmett, who must have been nearly sixty-three, as he was born in 1841, played for Yorkshire till well past forty, his slow action taking less out of him than if he had been a fast bowler. Mr. A. G. Steel gives a very good account of his methods in the 1888 Badminton Volume on Cricket, and the means he took of varying his pitch and other artifices for deceiving the batsman.

Lord Hawke, in the introduction to the recently published *History of Yorkshire Cricket*, expresses his warm appreciation of Emmett's services, and tells a good story of him. "It happened in the big year of 'W. G.' He had scored 344 for M. C. C. v. Kent and followed it up with 177 v. Nottingham. Our men met the Midlanders as we were in our turn journeying West to encounter the redoubtable G. O. M. 'I'll shoot him before he makes a hundred against us,' said old Tom to Richard Daff. But Grace scored 318 not out, and Emmett was the only one who attempted to bowl towards the finish."

Another good story in which he and W. G. Grace are also the principal figures has, we think, been told before now by the latter. Yorkshire had come down to Lords to meet the M. C. C. and "W. G." was playing for the premier club, after having just returned from Edinburgh whither he had been to take his medical degree. Emmett met him going to the pavilion with a black tin cylinder in his hand and asked what it contained. "That is my diploma," said the newly fledged Doctor proudly and forthwith showed him the permission of the University of Edinburgh to William Gilbert Grace to kill patients at sight. Soon after the teams took the field, the M. C. C. going in on a very wet wicket, "W. G." as usual, opened the innings and one of the first balls he received he cut so hard on Emmett that the latter was knocked flat on his back. "Hope you're not hurt Tom?" asked the big'un after the ball had reached the boundary. "No," "Doctor," answered Emmett as picking himself up and giving a comical glance he turned round and patted the be-muddled seat of breeches, adding "But I've got my diploma." According to "History," mentioned above, Emmett played for Yorkshire from 1866 to 1888, during which time he represented his County in 313 matches. He bowled in 299 of them, sending down 46,594 balls and capturing, 1,269 wickets at an average cost of 12.68. In 505 innings (71 not out) he made 6,686 runs, or an average of 15.1 and once topped the century, scoring 104 against Gloucestershire at Bristol in 1873.

TRADE SECRETS.

WORTH FORTUNES.

By keeping a Trade Secret vast fortunes have been made. Worcester Sauce, according to a London paper, is still made from an Eastern secret out of which Mr. Perrin made £700,000. The secret of making a certain kind of Chutney was lately sold for £7,500, and the French secret for Absinthe at £10,000. The same price was paid by a Wiltshire firm for the secret of the Brandenburg method of curing hams. Oxford values at £250,000 its process of making the paper of the famous Oxford Bibles. A few weeks ago £330,000 was paid for the secret of the renowned Chartreuse liqueur—a formula of 137 ingredients held by the Abbot and Monks of Grande Chartreuse. But probably the most famous and valuable secret of all is the process by which Dr. Williams' pink pills for pale people are made. It has changed hands only once since its discovery by the great Dr. Williams of Edinburgh, and its present proprietor would not part with it for £1,000,000. Its value is due to the sensational success of the remedy, and the fact that the secret process cannot be imitated except by the knowledge of very intricate details. The value of the secret (probably under-estimated at £1,000,000) shows how ridiculous are the statements of small shopkeepers who say they have some preparation of their own "nearly the same" or "just as good." If they had anything one-tenth as good it would have gained them fame and wealth. It is now known that most common diseases (such as anæmia, indigestion, nervousness, neuralgia, rheumatism, backaches, kidney trouble and general weakness) are caused by poor and insufficient blood—and that good blood is the surest cure for all of them. That explains the priceless value of Dr. Williams' pink pills, for the secret of these pills is that they actually make new blood. In that scientific way they have cured diseases that doctors and hospitals have failed to benefit. They can be obtained at most medicine shops, and will be genuine provided they bear the full name, Dr. Williams' pink pills for pale people; or Dr. Williams' medicine company, Holborn-viaduct, London, will send a bottle post free for two shillings and ninepence (six bottles for thirteen and nine). One recent cure is that of Miss Eugenie Scott, 2, Brazier's-cottages, New Park-road, Brixton-hill, London. "About fifteen months ago," said her mother, "my daughter Eugenie, who is eighteen years of age, began to complain of her health. She had been a robust and strong girl with a good colour in her cheeks, and had shown no signs of constitutional weakness. But at this time her colour left her and she seemed quite bloodless. The least excitement caused her to faint away, and she was always in a tired and languid state. Her heart beat terribly after the least exertion, especially on going up and down stairs, and it was simply one continual struggle for her to get about and try to do her work. Her appetite dwindled away to nothing, and with it her strength. It was impossible for her to keep at work, so she gave up her situation and came home to rest. She was here for about five months, but showed little signs of improvement. At length I suggested to her father that she should try Dr. Williams' pink pills, about which I had read a great deal. There was a change for the better in her almost immediately after she had started taking them, and she kept on improving until she had begun the fifth bottle, when she felt so well and strong that she was able to take another situation, in which she has remained up to the present time—ten months. If she were here, she herself would tell you that Dr. Williams' pink pills alone have restored her to health, and no one who saw her now would ever think she had suffered from anæmia. I am quite willing for you to publish what I have said, while I am sure my daughter will have no objection."

No Disappointment

If you buy Dr. Williams' Pink Pills for Pale People you take care to insist on receiving them in a pink wrapper bearing the Trade Mark

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE

as here shown. Pink Pills lacking Dr. Williams' name are spurious.

HONGKONG, MONDAY, JULY 25, 1904.

H. E. Mr. F. H. MAY, C.M.G.

Shortly before the conclusion of our late Governor's term of office in Hongkong, the Dormant Commission relating to the appointment of the Officer Administering the Government during the period preceding the arrival of Sir Henry Blake's successor, underwent an amendment. By virtue of that alteration the official selected to administer the affairs of the Colony was that it was that upon the Honourable Mr. F. H. May, C.M.G., fell the mantle of office, and on the departure of the late Governor Mr. May forthwith took the oath and assumed the responsibility as head of the local Executive. The appointment, although temporary, was received in the Colony with general satisfaction and by all alike no matter what the shade of his political opinion. In Mr. May the community felt that an official of consummate skill, untiring energy, considerable local experience and personal dignity had been fittingly elevated to the highest office at the disposal of the Crown within the Colony where he found the stepping-stone in a Colonial career. That the confidence reposed by the community in the Administrator was amply justified, recent events connected with the history of Hongkong amply testify. The eight months of the interregnum was no period to create a siccure. It was a period marked by great commercial prosperity, continuous expansion in the internal development of the Colony, and an epoch in the history of the world brought about by the opening of hostilities between Russia and Japan, whose ally we are. Our moral obligation forced upon the Colony the strict observance of neutrality to either belligerents, and situated as the Colony is, it is undoubtedly due to the Chief of the Executive that no cause for complaint has arisen with either of the Powers against Hongkong. Our diplomatic relations with Foreign Powers in this part of the world at all times of a complex character, were conducted with no less dignity than they have been with a total absence of friction throughout the period of Mr. May's government. The violation of the territorial sovereignty of the island by the Chinese Admiral Ho and his menials received ample reparation in the form dictated by the Colonial Government. The financial Budget presented by Mr. May's Council is the record one established for the Colony. His staunch advocacy in all matters tending to the promotion of trade and the advancement of Hongkong's interest has been demonstrated in his support of the representations for the building of the railway across our hinterland to Canton. It was not in his power to right the question of the Colony's currency; but there is no doubt that, in this as in other matters wherein, according to his lights, Hongkong is to be benefited, its inhabitants can count upon his loyal support in the future. Endorsement of the appreciation of Mr. May's administration, tendered to his Excellency, in the letter by the Unofficial Members of Council, of the 23rd inst., and printed in our present impression will be found throughout the Colony. We feel certain that the concluding wish expressed by the Colonial Councilors will be re-echoed by the people whom they represent, and who heartily applauded the gracious reference to the Lady who dispensed so much genial hospitality at Government House and took so much personal interest in many of our social and public functions during the past few months.

LOCAL AND GENERAL.

JAPANESE Consulates are to be established at Antung and Mukden.

The American steamer *Ohio* damaged her shaft off Kishima, and was towed into Nagasaki.

The estate of the late Sir Henry M. Stanley, the African explorer, has been sworn at £145,451.

FIVE plague cases were reported since Saturday at noon, making a total of 48 since the beginning of the year. Last week there were 25 cases and 25 deaths.

THE *Turrible*, cruiser, was commissioned at Portsmouth, on 21st ult., by Captain A. T. Stuart to convey relief crews to the *Abdon*, battleship, and the *Robin*, shallow-draught steamer, on the China Station.

THE German gunboat *Thir* has arrived off Tangu with a number of victims from Tsing-tao of a dog supposed to have rabies. They are to be treated at the German military hospital at Tientsin.

THE London correspondent of the *Birmingham Post* learns from a Russian authority that an investigation has shown that the ammunition reserves at Kherson, representing some fifty million rounds, have disappeared.

GENERAL Danbovski, of the Imperial Guards (infantry), and General Soboroff (infantry), Commander of the Moscow Army District, have been appointed to the Command of the Fifth and Sixth Siberian Army Corps, respectively.

TWO Russians were committed to gaol to-day by Mr. Gompertz, to await their trial for unlawful possession of 6 pearls, valued at \$1,430 which they claim they acquired at the looting of Peking, but which the Police have reason to believe were stolen in Canton.

RUSSIAN correspondents admit that the Japanese are adepts at turning positions and concentrating their forces on points where they are least expected. The correspondents accuse the Chinese of signalling to the Japanese throughout the T'ele-se engagement by means of mirrors fixed on long poles.

OF the four steamers stranded at Yokkaichi in the typhoon, as reported to us by wire, it is feared that the *Levi* will be a total loss, and the *Haidi* is stranded so high that it will be very difficult to refloat her. The *Eretria* is afloat again, and the *Cranley* will probably come off all right. But she is ashore on a sandy beach in nine feet of water, and it will require an extraordinarily high tide to refloat her.

CHAN CHU, a widow, was arrested while trying to leave the Colony with 13 tael's raw opium in her possession without a valid licence. When taken to the Station a further 8 taels of gross opium was found upon her, also uncovered by any certificate. She was placed before Mr. H. J. Gompertz, and fined \$115. The opium was confiscated. Other fines for illegal possession of raw and gross opium, in smaller quantities, amounted to \$883.50.

ON the 11th inst. H. E. Sir John Anderson, Governor of the Straits Settlements, went over the property of the Raub Australian Gold Mining Company, accompanied by Mr. Warnford Lock, the manager. His Excellency went down below to the 340ft. level and, in addition, viewed all the surface plant, as well as the new main shaft. H. E. was also asked to start the new electrical machinery for the Cornish pump, which he accordingly did.

LORENZO MARSHALL, manager of the Criterion Hotel in Pottinger Street, was before Mr. J. H. Kemp this morning charged by his wife and son-in-law with assault in the hotel last night, and further charged by Mrs. Marshall with being drunk and disorderly on the premises. Mrs. Marshall is the proprietress of the hotel. Evidence of the arrest was formally given, and the case was remanded for one week, bail applied for by the defendant, being allowed in the sum of \$10. This sum defendant was unable to furnish, and the complainant refusing to assist, the defendant was remanded to gaol.

ABOUT the end of last month Mrs. Hopwar, of 8 Barrow Terrace, Kowloon, lost a small gold brooch, and at once reported her loss to the police. Nothing further was heard until last night, when the complainant's house-boy was seen going into a pawn-shop at Yaumati. He was followed and found attempting to pawn the lost brooch. He was arrested, and on being taken to the station he said he picked up the brooch outside No. 8, but did not know it was his mistress's. Inspector MacDonnell charged the boy before Mr. J. H. Kemp, who sent him to one month's hard labour and 3 hours in the stocks.

MARRIAGE AT THE UNION CHURCH.

HAMBLIN-LOGAN.

The Union Church in Kennedy Road presented a festive appearance this morning at 11.30, the occasion being the marriage of Miss Mary Logan, eldest daughter of Mr. James Logan, of the Hongkong and Whampoa Dock Co., to Mr. Francis Henry Hamblin, chief officer of the steamer *Mefoo*, of the China mail service, of Shanghai. The nuptial knot was tied by the Rev. C. H. Hickling, pastor, the best man being Mr. Thomas Banks, of East Point. The bridesmaids were the Misses Lillie and Annie Logan, sisters of the bride, who were daintily attired in white silk muslin, with large white picture hats, trimmed with satin ribbons and lace, and each carried a handsome bouquet of lilies and maidenhair fern, and were escorted by a diminutive page effectively dressed in Royal blue and white. The bride, who arrived punctually, was in a handsome creation of white chiffon and silk, with the regulation three yards of train, and tulle veil, surmounted by a coronet of orange-blossoms, and carried a very handsome shower-bouquet composed of lilies, orange-blossoms and maidenhair fern. Mr. James Logan, father of the bride, gave his daughter away. The church was crowded with the friends of the bride and bridegroom, and the ceremony over, they took up places outside the church from which "vantage ground" showed, upon shower of rice fell upon the happy pair as they emerged from the sacred building. Several photographs having been taken, the whole party adjourned to the Hongkong Hotel, where a reception was held by the bride's parents, and where bumpers were drunk to the future happiness of the newly-wedded couple. Mr. and Mrs. Hamblin leave for Shanghai to-morrow. In honour of the event, as many of the Dock Company's employees as could be spared were given a holiday to-day, and mustered in force at the church.

THE TRIAD RAID.

STRANGE CEREMONIES.

Remanded from the 17th inst. the case against the fourteen Chinamen, alleged members of the Triad society, was called on this afternoon before Mr. Gompertz, when Inspector MacDonald testified to the finding of the following articles in the house occupied by the accused at their *rendez-vous*: On the table were sundry porcelain cups, covered boxes and a brass bound wooden bucket in which were 12 flags, of various and strange devices, an umbrella, a foot rule, a paper fan, a pair of scissors, 1 sword, (short), an opium lamp, bundle of joss-sticks, small mirror, branch of fir, a number of dried leaves, and a quantity of rice. Sundry books, banners and ornaments were found in the room. The Chinese constable, sworn, testified that he went on to the roof of the house adjoining No. 42 Temple Street, and thus got into the third floor of No. 42. He found all the windows closed, and looking through a slit saw the first defendant with something red round his head, and a sash around his body from shoulder to hip. In his left hand there was a pair of brass slippers, tied together. He was sitting on a bamboo stool and in his right hand held a book. Witness could not hear distinctly what the first defendant was saying, but he could see that he was reading to the others from the book. Another of the defendants was standing at the other side of the table holding some candles and joss sticks; a pair of brass slippers was on the floor on his right side. A hoop of wood with red papers was on the wall. This man was repeating what the other was saying. Three men were kneeling down with their hair all loose looking towards a bucket on the table. Between thirty and forty men were sitting around listening to the reading. The hoop with the red streamers was hanging on the wall. Witness entered the room, followed by an Indian sergeant, and seized the first defendant and the sergeant arrested the second defendant.

The case was eventually adjourned until Friday.

BURGLARY IN QUEEN'S ROAD.

On the night of the 20th inst., three men broke into the store of Messrs. Komback & Co.'s shop, No. 17A, Queen's Road Central, and stole therefrom 133 silver and metal watches, of the total value of \$450. Information was given to the Police early the next morning, and visits were paid to several pawnshops where some of the watches were found, in all fourteen being up to the present recovered. From the pawnbrokers' descriptions of the men who had pawned the watches three men were traced and arrested, on one of them being found some of the stolen watches. The men arrested were placed by Inspector Collett before Mr. Gompertz this morning. One defendant pleaded guilty and stated that the house coolie at Komback's had a duplicate key of the front door made for him to enable him to enter the premises for the purpose of committing the robbery. On arresting another defendant, and searching his premises, a vice and other tools were found in his possession which are reasonably suspected of having been stolen, he being employed at the Naval Yard. Formal evidence having been given the defendants were remanded until the 1st prox.

RAND LABOURERS.

A telegram from East Rand (Johannesburg) dated 22nd ult. states:—The first batch of 300 Chinese labourers has arrived from Durban. The coolies did not enter Johannesburg, but proceeded direct to the compounds of the New Comet mine on the East Rand.

About a hundred spectators and six mounted policemen witnessed the arrival. The coolies were quietly received, and no demonstration of any kind occurred. The journey from Durban was uneventful, the Chinese being orderly and well conducted. They marched to the compound. The coolie on arrival were shown their sleeping rooms around the compounds, which measure, roughly, 30 by 15 ft., and contain an average number of 20 men, who sleep in wooden bunks arranged in two tiers. The rooms will be heated by stoves. The food consists of hot meat, cabbage, and rice. The compound manager speaks Chinese, and came with the coolies from China. He will remain in that position at the New Comet mine. Hot and cold baths are being provided for the immigrants, as well as special latrine accommodation. There is a general dining room which seats about 500. The two compounds measure 321 by 285 ft. and 285 by 258 ft. respectively. In order to test the experiment and gauge the value of Chinese labour it is intended, if possible, to let the coolies do the entire work hitherto performed by Kafirs on the Comet and Cason mines, the Chinese being compounded separately from the Kafirs.

THE name of General Stackelberg is now very much to the front. His military studies have been carried on in St. Petersburg, where he has also been fortunate in securing for himself considerable Court influence and favour, by virtue of which he has been able to attain his present position and opportunities at the early age of forty-six. He comes of an old Eastlandish family, of German origin, but is connected, on his mother's side with the Polish family of Hauke, which saw some stormy times during the troubles of the last century. His maternal grandfather Count Hauke, was one of the leaders of the Polish Revolution of 1863, in which he distinguished himself under the name of "General Bosak." The Count, who closed his career fighting for the French in 1871, was brother to the mother of Alexander of Battenberg, some time Prince of Bulgaria. His father, Count Maurice Hauke, Minister of War in the Kingdom of Poland, was killed by his own soldiers in Warsaw for refusing to countenance the outbreak of 1830, and his name is inscribed on the monument in the Green Place in Warsaw, erected by the Russians in memory of the Poles who stood by them at that juncture.

THE UNOFFICIAL M. L. C.'S AND THE HON. MR. F. H. MAY, C.M.G.

APPRECIATION ON BEHALF OF THE COMMUNITY.

We have received from the Hon. Sir Paul Chater, C.M.G., the following copy letter, which has been forwarded by the unofficial members of the Legislative Council to H. E. Mr. F. H. May, C.M.G., the Officer Administering the Government:—

Hongkong, 23rd July, 1904.

Sir,—Finding that there will not be another meeting of the Legislative Council before the advent of the new Governor, and therefore no suitable opportunity of addressing your Excellency personally, we, the Unofficial Members, now beg, at the close of your period of office as head of the Executive, to record in writing our sincere appreciation of the manner in which you have administered the Government.

Your long experience of the Colony and the tactful discharge of your duties when at the Colonial Secretariat had marked you out as well worthy of the high trust and as eminently fitted to conduct its affairs. For the past eight months, your Excellency has held the reins with a firm and impartial hand, and you have uniformly exhibited the warmest interest in the welfare of the Colony, and the well-being of all classes of its inhabitants.

The energy with which public works have been pushed forward and the steady progress made with legislation are proofs that there has been no intermission in the work of administration.

We have also noted with lively satisfaction the willing support you have extended to the efforts made to secure the early construction of the railway designed to connect this Colony with Canton,—a matter of such vital concern to the people of Hongkong.

Other important measures have received your prompt and careful consideration, and your record has been one of continuous progress attended with the minimum of friction.

The hospitalities of Government House have been most agreeably dispensed by your Excellency and Mrs. May, whose charming affability and unfailing tact as a hostess has endeared her to the community.

Trusting that your Excellency will long be spared to further serve your Sovereign and country as a Colonial Administrator,

We have the honour to be,

Sir,

Your most obedient, humble Servants,

(Sd.) C. P. CHATER.

MR. MAY'S REPLY.

The following is Mr. May's reply:—
Government House,
Hongkong, 25th July, 1904.

Gentlemen,—I have received with much gratification your letter of the 23rd instant in which you are good enough to record your appreciation of the manner in which I have administered the Government of this Colony during the past eight months.

Permit me to say that if I achieved any success it is in large measure due to the loyal and willing co-operation which I have at all times received from you.

I am sensible that I owe this Colony very much. If I have in some small measure diminished the debt I am not unmindful that there remains a large balance against me in the account which it will ever be my earnest endeavour to discharge.

I thank you for the kindly references you have made to Mrs. May and I can assure you that she appreciates them no less than I do.

I have the honour to be,

Gentlemen,

Your most obedient servant,

(Sd.) F. H. MAY.

Officer Administering the Government.

A STRANGE EXPERIENCE.

A young Chinese woman, whose husband is a sailor, called yesterday at No. 7 Police Station, and told Inspector Collett that she went to a shop in Queen's Road West, to purchase some jade-stone bangles. While she was there other customers entered the shop, and appeared to take an interest in her business, and finally gave her some cigarettes to smoke. After inspecting a number of bangles the lady, feeling unaccountably drowsy, went home, and there fell into a heavy sleep. When she awoke she found someone had entered while she was asleep, and stolen all her jewellery. She at once suspected that the man who had given her the cigarette, which he had previously "doctored," had followed her home, and "finding" her already asleep, had helped himself to her valuables and decamped. Such is the lady's story; but the Police have an altogether different theory regarding the affair, and are at present engaged in testing it. It is believed that lovers and drink will take the place of cigarettes and drugs.

THE WAR.

KUROKI'S ADVANCE.

HSIHOYENG OCCUPIED.

Mr. M. Noma, Consul for Japan, kindly favours us with the following telegram:—

Tokio, 23rd July 10.50 p.m.

General Kuroki reports that one column of our army commenced operations on the 18th inst. for occupying Hsihoiyeng, (on Liaoyang road, north of Lienshankwan) where the enemy constructed strong defence works, and posted on eminences commanding defile and sloping eastward.

The columns of the main force advanced in front of the enemy's position, commenced cannonading at dawn of the 19th inst. to which the enemy replied with 32 field guns.

Meanwhile one detachment, crossing a steep mountain pass menaced the enemy's right flank. The enemy offered a stubborn resistance and a sanguinary fight ensued.

At 5.39 p.m. the main force penetrated the enemy's position on the heights north-west of Hsihoiyeng, while the detachment facing the enemy's right cut his retreat.

At 8 p.m. Hsihoiyeng and the neighbourhood fell into our hands. The enemy's main force fled in confusion towards Anping.

Our casualties were seventy-two killed including two officers, four hundred and fifty-two wounded, including sixteen officers. The enemy left on the field one hundred and thirty-one corpses, and his total casualties were estimated at over 1,000. In this engagement the enemy consisted of the infantry of the 34th and 36th regiments and one Cossack regiment with 32 field guns.

THE weekly entertainments given at the Metropole Theatre, continue to be a great success. Saturday's programme opened with the rendering of "Doreen" by Mr. Walker Keene, who was followed by Miss. Gerlie Maisie whose clever dancing secured loud applause. Miss Dora Grey was in good form and sang well. Jim Morris in his "Kolorad Komedy" kept the house in roars of laughter, and encores finally brought him out to introduce his clever step dance. Messrs. McCormick and McGinty failed to appear on account of McCormick being ill and Mr. Lansdowne, who has also been ill lately, filled the vacant place. The farce "The Lawyer's Clerk" was introduced with great success, and was followed by a Bioscope exhibition, which brought the evening to a close.

THE WEATHER.

The following report is from Mr. J. I. Plummer, Chief Assistant of the Hongkong Observatory:—

On the 25th at 11.00 a.m. the barometer has risen slightly in Mid China and fallen generally elsewhere but particularly over the Pacific, to the East of Formosa where a typhoon is at present raging. The direction of the typhoon is towards the N.W.

Gradients are very slight on the China Coast but may be expected to become rapidly steeper and strong N.E. winds may be anticipated in the Formosa Channel. Over the China Sea the same light S. to S.W. winds will prevail. Forecast:—Light S. to S.W. winds, fine.

THE Marine Court in Melbourne has given its decision respecting the wreck of the R.M.S. *Australia*. The captain and officers were absolved from all blame. It was found that the wreck was due to the wrongful act of Pilot Dennis, in porting the vessel's helm. The Court recommended that the pilots should be compelled to submit to annual medical examinations.

A BERLIN correspondent of a financial paper states that the Deutsch-Asiatische Bank, which, as already reported, is about to increase its capital, is trying to obtain the privilege of issuing bank notes in Asia. Negotiations have been carried on with the German Government for the past two years, and the matter is now to be laid before the Reichstag. The proposed bank notes will be expressed in terms of Mexican dollars, are only to circulate in the German Protectorate of Kiaochow where the opening of the railway renders it urgent that currency should be provided.

THE "MALACCA" INCIDENT.

At the conclusion of a sitting of the House of Commons at midnight, Mr. Balfour said the Government had no confirmation of the rumours that the *Malacca* had been released. Some of the papers, nevertheless, take it for granted that her release has been decided upon.

It is, however, pointed out that the gravest question is still the status of the Volunteer cruisers. The *Telegraph* understands the Russian Government has been informed that the cruisers will be treated as pirates if they refuse to desist from interfering with British shipping.

LATER.

Reuter's agency at St. Petersburg wires that the Russian Government's reply undertakes no similar incidents to that of the *Malacca* shall occur again. The *Malacca* will go to a Mediterranean port, probably Suda Bay, where as a matter of formality the cargo will be examined in the presence of the British Consul. She will not be taken to a Prize Court. Claims for damages and delay will be submitted in due course.

POSITION AT PORT ARTHUR.

Major-General Dession, Russian Military Agent, has issued the following telegram from Major-General Floug, dated Moukden, 6.35 p.m. 15th July:

We have received information to the effect that during the 3rd and 4th July our troops took the offensive on the right flank of the line of defence at Port Arthur in order to repulse the advanced detachments of the enemy. Their troops had succeeded in taking possession of the East side of the valley of Lungwangtang.

On the 6th July our troops after a successful engagement occupied the heights which commands the Pass of Lungwangtang. Our losses are insignificant.

According to Chinese information the Japanese during these three days lost about 2,000 men.

Generally speaking from the beginning of the investment on the land side, in the radius of the fortress the Japanese have not obtained any success.

The health and morale of our troops are excellent.

The Battle of Motienling.

The following telegram is also from Major-General Dession, Russian Military Agent, dated from Moukden, 19th July, at 5.54 a.m., signed General Floug:

During the night of the 17th July our detachment started to advance against the enemy's position on the summit of mountain (passes) over which leads the main road between Liaoyang and Fengwangcheng. The Commander of detachment having met the enemy's forces in considerable strength, decided not to accept a decisive battle and ordered his detachment to retreat towards (or upon) its former position near Thavuna.

About 3 o'clock the engagement was suspended. Our losses have not yet been altogether estimated, but they probably exceed one thousand men.

News from Port Arthur.

Chefoo, 20th July.

A trustworthy Japanese who has arrived from Dalny states that the Japanese troops are now preparing for the bombardment of Port Arthur, and are occupying several important positions round it; but the general attack will not begin yet. The skirmishes that take place daily are only defensive fights against the Russian attacks.

A severe battle took place about the 12th inst. at a point about six miles from Port Arthur. The Japanese casualties were 350, but the Russian losses were much heavier.

Firing was heard yesterday both on sea and land.

S. C. FARNHAM, BOYD & CO., LD.

The annual meeting of the shareholders in this Company was held yesterday afternoon (19th inst.) at 26, Broadway, Shanghai. There were present: Messrs. Jas. R. Twynman (Chairman), John Prentice, H. von Rucker and S. Groundwater (Directors), W. A. C. Platt (Legal Adviser), Jas. H. Osborne (Secretary), L. C. B. Edmonston, H. J. Clarke, J. D. Thorburn, J. M. Young, A. I. Anderson, C. E. Pearson, D. T. Black, R. E. Toeg, C. S. Barff, I. R. Michael, Thos. Weir, Chun Neaching, Zee Lan-char, P. Moller, Jas. Tulloch, R. Wortmann, Marcus Wolff, F. L. Marshall, G. Nielsen, A. Brown, Horatio Robertson, W. H. Beatty, R. H. Elias, Frank Gove T. Pemberton, W. G. Peary, J. Nolting, Dr. F. A. Robinson, Dr. Gilbert Reid, R. H. Hunt, J. Grant Mackenzie, W. H. Anderson, Max Hueter, P. W. Irvine, W. A. Moller and others, representing a total of 28,583 shares.

After the formal preliminaries,

The Chairman—Gentlemen, the accounts have been in your hands for some days, and with your permission we will consider them as read. The profit for the year's working is not quite so satisfactory as in former years, no doubt attributable to the exciting rumours before and after the war began, which practically put a stop to shipbuilding operations. The outlook now is by no means gloomy, as we have orders for river steamers, pontoons, large and small lighters, and we expect more when peace has been declared; there seems to be no doubt business will then revive. During the year we have followed our usual practice and have written off the cost of all repairs to docks, machinery, etc. The net profits for the year amount to Tls. 760,553.18, including the amount brought forward, which the Directors propose to deal with as follows: The interim dividend of 5 per cent paid in December last year absorbed Tls. 276,000; of the remainder it is proposed to pay a final dividend of 7 per cent amounting to Tls. 386,400 or 12 per cent for the year; place to reserve Tls. 50,000; which gives us a total reserve fund of Tls. 900,000 or practically one-sixth the capital of the Company. The balance of Tls. 48,553.18 to be carried to new account. For your information, gentlemen, our position is gradually improving; this is evidenced by the amount at reserve; we do not consider it necessary to increase this fund by large sums in future; the reason is we have recently had the properties revalued, which is considerably in excess of the amount standing in our books against each lot. The business of S. C. Farnham, Boyd & Co., Ltd., in our opinion is better than it has ever been before; you will see by the accounts the unfinished work on hand and stock amounts to Tals. 1,559,852.37. This does not include the orders which have recently been obtained. Every economy is observed to the smallest detail and every effort is put forth to make the most out of everything. We have nothing to be anxious about and the future seems very encouraging. Referring to the circular which was sent you with the report and accounts, I wish to say a few words for your information. When the amalgamation of the various companies took place, it was considered advisable to retain the Old Dock as a land mark; the clause referred to was therefore inserted in the deed of settlement. "That the property known as the Old Dock shall not be sold unless and until the sale has been approved by shareholders holding seven-eighths at least of the issued shares of the company." Since then land on this side of the river has increased so enormously in value that it was considered it would be a wise proceeding to provide for contingencies and be prepared to sell as opportunity offered. You may rest assured, gentlemen, it is not the intention of your directors to sell it for purposes of competition, nor have we any idea of giving it away; it can therefore be safely left to the discretion of the directors to be dealt with for the best interests of the shareholders; we shall therefore feel obliged for the return of the signed letters at your earliest convenience. Mr. Cranston has gone home on leave, and Mr. Prentice has been granted leave to go home and bring his wife and family out; we wish him a pleasant passage each way. In conclusion, gentlemen, the directors are most desirous of doing all they can to earn you the highest possible dividend. We have an efficient staff and so far both staff and equipment have enabled us to deal with all orders, large and small, which have been placed in our hands; unfortunately we have, like many other firms, suffered from dullness occasioned by the war. If any shareholder has any questions to ask, I shall do my best to answer them.

Mr. A. L. Anderson—At our last meeting I put a question for information as regards the accounts. The answer I got was that, if the shareholders thought fit, the information would be imparted. I should like to put the question again now, and it is: "At what price does the steamer *Munchen* stand in the Company's books?"

The Chairman—As a private shareholder you can see the figures in the books, but it would be detrimental to the interests of the shareholders to state them here. We have just had a telegram about her sale, but it would be unwise to make a statement publicly. Shareholders can find out all about it in the office downstairs. I think the shareholders will see the force of that argument. It would be unwise to let it get into the papers, as it might interfere with the sale (applause).

There were no further questions, and the following resolutions were then put and carried unanimously without comment:—

Proposed by the Chairman, seconded by Mr. Prentice: That the report and accounts of the company, made up to the 30th of April last, as printed and circulated, be adopted and approved; and that the directors be authorised to pay a dividend at the rate of Tals 7 per share to the shareholders on the register at this date.

Proposed by Mr. Thos. Weir, seconded by Mr. J. M. Young: That Mr. H. von Rucker be re-elected a director of the company.

Proposed by Mr. Marcus Wolff, seconded by Mr. W. A. C. Platt: That Mr. Geo. D. Scott and Mr. J. D. Thorburn be re-elected auditors of the company for the present year.

The meeting ended with the announcement that dividend warrants would be posted next day.—N. C. D. News.

WATER CARNIVAL.

AT KOWLOON.

Whenever members of the Victoria Recreation Club decide upon providing entertainment for themselves and their friends one may rest assured that an exceptionally good programme will be presented. This has been the case for many months past, and the enthusiasm and energy that is now being displayed by the officials and members must have the effect of popularising the Club and again bringing it to the forefront of sporting institutions in the Colony. Those who attended the water carnival on Saturday, and there was quite a large crowd at the Club's headquarters, were able to see what the V.R.C. can do in the way of sport, and if one might make a suggestion it would, we believe, be an excellent thing if these carnivals were held more frequently. The officials for the meeting were: Handicappers—Messrs. T. Meek and J. H. R. Hance, Staters—Messrs. G. A. Caldwell and E. W. Mitchell, Judges—Messrs. A. Chapman and W. S. Bailey, Timekeeper—Mr. E. M. Hazeland, and Harold S. Austen, Hon. Secretary.

Details of the events are as follows:—

THE I. C. S. N. Co.'s "HIPSANG."

Messrs. Jardine, Matheson & Co., the agents for the Indo-China line, had received no definite news last night in regard to the whereabouts of the I.C.S. *Hipsang*, says the *N. C. D. News*, of the 22nd inst. They have received telegraphic information that Chinese arrivals at Chefoo claim to have seen a merchant vessel torpedoed by Russians near Pigeon Bay on the 16th inst., at just about the time that the *Hipsang* would, in the ordinary course of affairs, be in that neighbourhood. There is still the possibility that the *Hipsang* may have gone straight on to Hongkong, but the agents do not hesitate to say that the chances of her so doing were remote, as she had not prepared to go further than Chefoo without putting into port. The Chinese statement leads to the supposition that the affair was a lamentable mistake.

PRIZE DISTRIBUTION.

AT THE ITALIAN CONVENT.

Some of the brightest hours of the many happy days spent by the scholars at the Italian Convent are those when the children assemble once a year to be awarded by kind friends for diligence and care exhibited in their studies during the preceding twelve months. The "red letter" day was on Saturday, and at 5 p.m., Mrs. May, accompanied by the Hon. R. A. B. Ponsonby, private secretary to H.E. the Officer Administering the Government arrived at the Convent for the purpose of distributing the prizes. At the invitation of the Mother Superior quite a large gathering assembled to witness the ceremony, those present including Cavalier and Mrs. Volpicelli, Mr. and Mrs. Huke, Mr. and Mrs. Post, Mr. A. Rumjahn, Mr. and Mrs. E. A. Irving, Mr. and Mrs. Machado, Mr. and Mrs. N. G. Nolan, Mr. S. D. Setna, Senhor Conselheiro A. G. Romano, Father P. de Maria, Father Spada, Father Gabardi, Father Brun and Father Bullons.

The room in which the ceremony was performed was prettily decorated, and when all was in readiness Miss Maggie Brewster welcomed the guests on behalf of the Mother Superior. Then a vocal and musical programme was carried through, after which the Rev. Father de Maria said—Madam, ladies and gentlemen—Allow me, before proceeding to call out the names of the successful pupils for their prizes, to read you the annual report of the Inspector of Schools regarding the results of the Italian Convent School. Notwithstanding that, as I would admit, there is still room for improvement, yet I think we have good reason to be satisfied with the result of our work, hearing as we do from this report that the discipline and organisation are excellent and the school thoroughly efficient. Mr. Irving in his report says:—There has been a most praiseworthy attempt by the staff of this school to remodel the teaching in accordance with modern ideas. This attempt has been most successful in the lower standards. It will be seen below that the higher standards are not equally satisfactory, but they can only be expected to improve gradually until they are filled by scholars who have had a better grounding according to the new method adopted. In the Infant School, kindergarten work has been successfully introduced. Regarding Standards I-III, history is being taught very well in the form of story-telling. But I think that rather too much work is being put on Standard I, where it had better be dropped.—It will be dropped. (Laughter). Arithmetic is taught up to decimals in Standard III. Mental arithmetic, a new subject, was well done. Geography, beginning with local geography, was well known. Recitation was fair. More distinctness of utterance is wanted. The subject should always be well within the comprehension of the scholar. Object lessons are very well taught in Standards IV-VII. Composition Grammar was very good in IV, but showed an unaccountable falling off in Standards V, Six and VII were good and would have been very good but for the work of two or three in each. Discipline and organisation were excellent throughout the school. I report the school to be thoroughly efficient." And now, madam, I have to ask you, in the name of the Reverend Mother, to honour us by distributing the prizes. The prizes were then presented to the successful students.

The following is the list of prize-winners:—1st Standard.—1, Helen Brewster, 2, Willy Hart, 3, James Kew, 4, Frank Murray, 5, Frederick Brewster, 6, Manuela Oseta, 7, Alberto Remedios, 8, Louisa Choy and 9, Julia Ycaza. 2nd Standard.—1, Gloria Ycaza, 2, Susan Mugford, 3, Pepita Ros, 4, Ray Friemann, 5, Emilia Munoz, 6, Elvira Felices, 7, Judith Botelho and 8, Ricardo Xavier. 3rd Standard.—1, Joao Gomes da Silva, 2, Enriqueta Felices, 3, Giovanna Remedios, 4, Victoria Munoz, 5, Adele Klingemann, 6, Felagia Urquico, 7, Renata Galluzzi, 8, Alice Brandt and 9, Etelvina Remedios. 4th Standard.—1, Dolly Remedios, 2, Isabel Hicks, 3, Aurea da Luz, 4, Trinidad Gay, 5, Louisa Hicks, 6, Angelina Barradas, 7, Jessie Pestonjee, 8, Hortencia Baptista, 9, Mariquinha Vieira, 10, Alice Nuttall and 11, Mary Elizabeth White. 5th Standard.—1, Maria Santos, 2, Maria Gomes da Silva, 3, Manuela Gay, 4, Feliza Munoz, 5, Paulina Botelho and 6, Januaria Sison. 6th Standard.—1, Elisa Gamara, 2, Pepita Munoz, 3, Edith Best, 4, Cecilia Lukban, 5, Gertrude Hopwar, 6, Annie Burke and 7, Marie Nolasco da Silva. 7th Standard.—1, Teresa Baretto, 2, Encarnacion Querubin, 3, Kate Euanston, 4, Doris Chin-yat, 5, Carmen Conceicao and 6, Ernestina Marques. Special Class.—(For General Improvement) 1, Clara Burke and 2, Maggie Brewster. The Hon. R. A. B. Ponsonby on behalf of Mrs. May said it always gave her great pleasure to come to that institution, one of the very best in Hongkong. She had heard with great interest the excellent report of Mr. Irving upon the school, and trusted that it might still go on improving. The school was due to be re-opened on 2nd September. Mr. May had asked that the opening be postponed till the 5th of September. (Applause). Other items on the programme were performed, and proceedings terminated with the singing of "God save the King."

Mails and passengers will be forwarded by M. M. s.s. *Polynesian*."

THE KWANGSI REBELLION.

VICEROY'S MOVEMENTS.

A Canton dispatch states that owing to an urgent command of the Throne that Viceroy Tsun Ch'ui-hsien should lose no time in starting for Kwangsi to suppress the rebellion there which has lately assumed serious proportions, his Excellency left Canton (as already reported in our columns) on the 18th inst. for Wuchow, accompanied by a brigade of bodyguards and a large staff of civil and military mandarins. On the 16th instant, his Excellency sent on ahead of him a large force of well-armed troops, well provided with quickfiring artillery, with instructions to await his coming in the vicinity of Wuchow. It is further stated that while in Kwangsi province his Excellency intends to pay special attention to the effective patrolling of the Kwangsi-Tungling frontier, in order to prevent insurgents from crossing into French territory and so causing international complications.

A Nanking dispatch states that owing to the receipt of instructions from Peking, Viceroy Wei Kuang-tao has ordered the transport of a brigade of Kwangsu foreign-modelled troops, under the command of a well-known Taoist, named Tao, to start for Kwangsi via Hunan province to assist the Governor of the former province in suppressing the insurrection there. It is further stated that owing to the repeated mutiny of badly-paid troops in Kwangsi province, the Government forces there have been reduced one-half.

THE LIUCHOW FIGHT.

The taking of the city of Liuchow by the brigade of mutinous troops a few weeks ago, as already recorded was, as now reported in a Wuchow, Kwangsi despatch, followed by the indiscriminate massacre by these soldiers, assisted by local desperadoes, of most of the city officials and a number of the gentry of the city, a few of the wealthiest of whom, however, had their lives spared in order that a ransom might be demanded from their unlucky families. After plundering and slaying for forty-eight hours, the mutineers decided to abandon Liuchow for the hills by invitation of the insurgents holding those fastnesses. An idea may be formed of the amount of loot taken by these savages on their departure from Liuchow, says the *N. C. D. News*, when it is stated that they compelled no less than 4,500 of the inhabitants to carry their plunder for them. Among other barbarities the mutineers are said to have taken more than 800 unfortunate women and girls with them to the hills. The *P. & T. Times* says that Marshal Su is to be sent back to Kwangsi to redeem his character by another attempt to suppress the rebellion.
